

[#STARTUP5999.COM](https://www.startup5999.com)

Are you an Entrepreneur?

Do you have a unique idea with a Business Plan?

Best era of Entrepreneurship

In the current era of Entrepreneurship, having a startup is the most passionate profile for any individual. If you are a student, a professional, Business owner or currently working on any startup Idea, The [#STARTUP5999](https://www.startup5999.com) package is the best way to achieve growth with the minimum cost possible to get ready with all necessary requirements like having a website with your company domain name, having your customized emails to give your emails more professionalism and of course the legal security by registering the firm. All the above services will be provided by our IT Management team with 24*7 support system to make your business digital ready in the smallest possible time.

Why #STARTUP5999?

If you have a business plan but don't know what to do next; we will provide the preliminary support to your startup at an extremely affordable cost. We have interest in serving fresh minds with our knowledge and experience so that they can manifest something good for themselves and for the society.

In this 21st century there are many brains working on something but every brain not necessarily produces result, the reason being lack of knowledge, unaffordable rates, etc. Being at the early age neither you have lots of money to invest nor the experience and knowledge.

We have created a solution for this problem. We have decided to provide our knowledge along with some of the products and services that you would need at the first stage of your business. The solution is #STARTUP5999.

Once you are associated with us, our web development team, startup guiding team, legal advisors and Support team will be deployed on your business to make it a fantastic growing new DIGITAL business.

We start with 1. Website Development

The designer will work with you to create your ideal website design once you have provided a rough content via [this form](#). The website designer and Developer team will be busy turning your website from a concept into a reality, whether you want fancy moving images in a query the latest HTML5 and css3 applications or simply articles customized WordPress background the team has it in their hand.

Once we have worked out a design you can sit down for a good chat with our project managers, they will provide some SEO keywords and help your site to get more visibility in the web.

Finally, sign of go live. Once all the testing is complete team manager will go through our quality check and signup process with you, once this is done your site is ready to go live.

Parallely we work on 2. Logo Design

You will be preparing and sending details to our logo's specification briefing through [this form](#).

When our Logo Design Team provides a set of Designs to you, you review and respond. If the you and your team notifies 'Logo Design Team' that you consider the Design as not reasonably responsive to the Feedback, you shall provide information regarding amendments or modification to be made to the initial Designs. After providing your feedback, you will be provided a subsequent Response that conforms to the additional criteria requested by you.

Next comes 3. Domain name registration

You will be providing us a list of interested domains and according to the availability and your feedback we together will finalize the domain name of your choice. (e.g. domainname.in/ domainname.com, subjected to availability).

Further comes 4. Hosting subscription

We will be hosting your website on one of our servers and manage all the services on your behalf. You won't have to worry about any code, data, system, or control panel Our team will take care of all of these for you.

Also 5. Custom emails

Our team will provide you 5 custom emails of your finalized domain name (e.g. [designation@companydomain.com](#)) you can choose whatever designation or name you want as your email address. You will be provided with complete access to these emails along with importing facilities to use these custom emails into your regular emails.

Legal security 6. Firm Registration

Your Startup will be registered under MSME (Micro, Small and Medium Enterprises) under Ministry of Micro, Small and Medium Enterprises, Government of India. This process will be running since the date you get in touch with us. You will be providing all the details required for this process via [this form](#), we will register your Startup in MSME for you.

Further, 7. Google Business Listing

You know it very well that is today's era Digital means Google, and to be present on web is to be present on web. Google is more than just a search engine, it is a business directory that allows you to manage how your business presents itself in Google Search and Google Maps. We will get your Company listed on Google My Business to start building visibility in Google Maps and Google Searches in your local community. The more you are visible in Google, higher is the business that you would get for your business.

Added, 8. Continuous Marketing support and Networking

We will be providing marketing assistance by means of mainly via LinkedIn along with Facebook, Twitter and other social networking websites, our company pages along with the core members of our network will be sharing and helping you to have your brand on their professional network. You will be getting an exposure in front of Approximately 1 LAKH professional viewers via our maximum possible platforms and it will be a continuous process.

Finally, 9. Online Payment Gateway

We setup a PAYMENT GATEWAY for our clients so that they can access to the best payment services via the PayUMoney, which provide the greatest reach and conversion rates in market growth. It enables you with latest payment technologies.
